## Flexible, Scalable & Expert Integrated Fulfillment Solutions

Our expert contract packaging and fulfillment teams take your project from design and assembly to packaging and distribution. Services are customized to projects of any size, for B2C, B2B or third party partners.

Because a smooth delivery depends on a myriad of details, we are relentless planners. PRIDE integrates supplier management, inventory controls, order processing and materials resource planning into your service order to ensure that your project is delivered accurately and efficiently - exactly as you expect.

PRIDE's quality management systems and are designed to ensure that your project needs are met with measurable results and a commitment to continuous improvement. Our supply chain and fulfillment services received top honors in a global service supplier competition. Yes, we're proud.

## EMS Service Provider and Partner

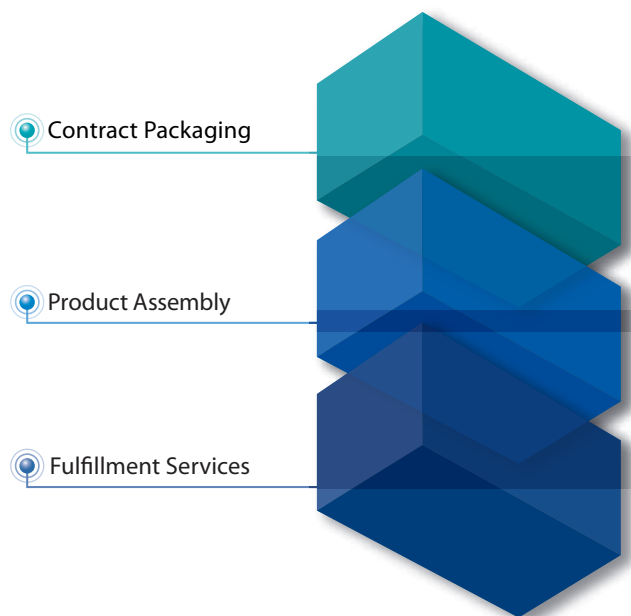

**Technology.** Our ERP systems accurately forecast, track and manage your inventory, create supply chain and logistics efficiencies, and provide visibility into your business operations.

**Service.** Award-winning supply chain and fulfillment services to ensure the best possible sourcing, materials management, and distribution - keeping you ahead of your competition. A customer-first approach that consistently delivers.

**West-Coast & On-Shore Advantages.** Our Northern California facilities are ideally located along major transportation corridors in close proximity to shipping ports without the large-market overhead.

**Social Value-Add.** Your business supports a social enterprise, creating jobs for people with disabilities. Your employees and customers can feel good about creating opportunity for individuals to achieve their potential.

**Individual or Integrated Services to Suit Your Needs.** We bring all the pieces together with proven expertise - from seasonal projects and custom runs to high-volume program management and e-store fulfillment.

**Contract Packaging.** From blister, shrink wrap and skin packaging to assembly and packaging/re-packaging unique, multiple-piece products. We specialize in pre-loaded club-store and retail displays, packaged and palletized to your specifications, providing point-to-point shipping for immediate use on the floor.

Club Store Packaging | Pallet Display | Point of Sale Assembly | Season Projects | Secondary Packaging | Shrink Wrap | Skin Packaging |

**Product Assembly.** Customized solutions from simple collating and kitting to complex shipper display construction and assembly. Our trained and predictable staffing supports flexible scheduling, faster turn times and reliable, high-quality results.

Kitting & Bundling | Bagging | Sealing | Collating | Sorting | POP Display Assembly | Inspection | QA/QC |

**Fulfillment Services.** Turnkey fulfillment solutions that seamlessly deliver the essential services needed to grow your company. Your orders are backed by rapid response, regardless of project size - from international technology parts distribution and returns to e-store merchandising fulfillment support. ISO quality systems surround inventory forecasting and replenishment, order downloading and tracking, database management, and domestic and international shipping services.

Web-based Order Fulfillment | Product Sourcing | Pick, Pack & Ship | Warehouse & Distribution | Reverse Logistics | Returns Management | Direct to Consumer or B2B | Customer Notification | Transportation Services | Domestic & International Shipping |

# Our Service Offerings
