Comprehensive Commercial Facilities Services

What We Deliver. At PRIDE Industries, we understand how important a clean, organized, and well-maintained work environment is to morale and productivity. We're committed to providing cost-effective services that keep your facility in top-running order so your employees can operate at peak performance.

PRIDE maintains hundreds of facilities and millions of square feet of university, office building, government and military structures each day, including industrial and high tech space. We offer an integrated approach to commercial facilities maintenance needs with a wide range of superior quality, cost-effective, and flexible services tailored to meet your specific needs.

Flexible Single Source Solutions

Our menu of services and staff of well-trained employees allows you to choose the type and level of service you need - from basic custodial and commercial cleaning, to light building maintenance or highly specialized services.

We simplify operations by integrating products and services into a cost-conscious solution from a single, committed, top-quality supplier. We support our customers' environmental commitments by integrating earth-friendly practices into your facilities care, sourcing green products, and minimizing environmental impact through responsible practices. PRIDE's solutions have helped leading corporations achieve and maintain key LEED building certifications and EPA recognition.

PRIDE's highly trained professionals maintain cutting-edge industry knowledge. Our integrated technology increases communication and improves quality and accountability. Our e-business systems provide work-order intake, tracking systems, and communication portals designed to meet your requirements.

We apply strategic management processes, operate on your schedule, and perform ongoing preventative maintenance to deliver consistent, optimal facility operations.

To ensure quality, we document our processes and perform regular audits that enable tracking of key metrics related to quality, productivity, cost-efficiency, and your satisfaction.

CIMS & CIMS-GB Certified. To ensure continuous improvement and best value for our customers, PRIDE Industries has been CIMS and CIMS-GB certified with Honors - the highest level of achievement. CIMS and CIMS-GB focus on the essential elements of a well-run, customer-centered, and sustainable organization, standards adopted by ISSA - the leading trade association for the cleaning industry world-wide. PRIDE's CIMS-GB certification enables us to assist customers in achieving points under the LEED-Existing Building: Operations and Maintenance (LEED-EBOM) Green Building Rating System.

Measurable Cost Savings. The art of great service and value comes in delivering top quality at the lowest price possible. We'll work with you to develop key performance metrics and controls which we track and report each quarter.

Our experienced managers keep their eyes on your expenses and take proactive steps to reduce costs where possible - without sacrificing quality.

PRIDEClean® Product Line. PRIDE's exclusive PRIDEClean product line was designed to meet the stringent standards of the EPA's Safer Choice (formerly DfE) program. Field-tested in some of the most demanding environments, PRIDEClean outperformed the competition, while achieving significant cost savings. Our products go to work in some of the toughest environments every day - from military installations to airports and universities. They can help you reduce your environmental footprint. For more information, visit: pridecleaneco.com.

Safe, Experienced Professionals. Ensuring workplace safety is an important way we keep costs low, lessen downtime, and maintain a consistent workforce. Our uniformed employees are courteous, responsive, and focused on safety. Our successful training adds up to cost savings that we pass on to you.
